

To Use This Chart
 Use the  icons to align the A4 printouts, placing page 2 under this page and tape together. Place a heavy box at the back edge of the heel line*

To Find Your Length
 Align your heel just touching the box, where indicated on the chart. Center your foot in the box. The line that touches your longest toe indicates your shoe size. **

* Do Not scale, printout print at 100%. To check measure the length of the measurement box it should be 38CM

** this is an estimate of your boot size To properly be fit, try on boots in a snowboard shop.

To verify that this chart printed out correctly, please use a ruler and measure the length of this chart.
It should measure 38 cm from end to end.

**PLACE BACK OF YOUR HEEL
ON HEEL LINE**
